PROFESSIONAL EXPERIENCE

Frontend Developer | Startup, Meerut (Approx. 1 Year)

- Developed and maintained frontend features for a production School ERP using React.js.
- Built Dashboard, Student & Teacher Management, Attendance, Fee Management, Authentication, Reports and Admin modules.
- Implemented reusable components with React Hooks, Context API, Redux Toolkit and React Router.
- Integrated REST APIs and created dashboard visualizations using Chart.js and Recharts.
- Developed responsive interfaces with Tailwind CSS and Bootstrap.
- Worked in GitHub-based workflows using feature branches, pull requests and code reviews.
- Tested, debugged and maintained production features used by multiple schools.

SELECTED PROJECTS

- School ERP (Production): Built most frontend modules and reusable UI components.
- MTEW: Developed and delivered a complete responsive website for a paid client.
- EduEmissary: Developed responsive UI and reusable frontend components.
- Face Attendance System: Built a Python-based facial recognition attendance solution integrated into ERP.
